OUR SEEDS
are
DEPENDABLE

PEDER BACK, Prop.

Dear Customers and Friends:

I wish to thank the many customers who, by their patronage, have made it possible again this year to offer you our little price list. I appreciate your business and promise you the best seeds obtainable.

I realize the great importance of good, reliable seeds, having been a gardener for twenty years, and I wish to sell you such seeds as I would like to grow myself.

Yours sincerely,

PEDER BACK.

Spray All Fruits & Vegetables

Worms and bugs, blight and rot attack most garden crops and fruits. Disappointing results are almost certain unless you spray. The "one best spray" for fruits and vegetables is

Pyrox
REG U S PAT OFF
TRADE MARK REGISTERED

It kills leaf-eating worms and bugs, and prevents blight, rot and other fungous troubles. It gives the leaves a healthy green color and makes the plants sturdy and vigorous. Pyrox costs little for the good that it does. It is easy to use—just mix with cold water and spray. Ask today for the new Pyrox Book. It is a practical spraying guide.

Cabbage Seed

Cabbage Seed is our leading Specialty, and we recommend **Back's Own Strain** to any one who wants the best.

Back's Strain of Cabbage Seeds are grown in the Northern Part of Denmark, from the very best Selected Stock, by reliable Seed Growers, whom we know personally, and we firmly believe **Back's Strain** of Cabbage Seeds to be the most reliable you can buy.

Back's Strains of Cabbage Seeds are true to name. **Back's Strains** of Cabbage Seeds Produce the Biggest Crops. **Back's Strain's** Produce Large Uniform Heads. **Back's Strain** can be depended upon. All Seed of **Back's Strains** are Disinfected and Treated by us.

The germs of some of the worst cabbage diseases such as Black-Rot and Black-Leg have been found to overwinter on Cabbage Seed, thereby causing loss to entire Fields. For this reason we disinfect all our cabbage Seeds of **Back's Own Strain**, thereby making it superior to all other Cabbage Seed.

Back's Copenhagen Market

Best Early Cabbage

The heads are exceptionally large, very solid and of most excellent quality. The plants are vigorous but compact with short stem. **Back's Strain** Produce very large round heads and very early.

Oz. \$.40 1/4 Lb. \$1.25 Lb. \$4.50

Back's Glory The Second Best Early Cabbage

From two to four weeks later than Copenhagen Market and will keep late without busting. The plants are very strong growing and produce large round heads.

Oz. \$.30 1/4 Lb. \$1.00 Lb. \$3.50

Back's Hollander or Danish Ballhead Short Stem. The Best late Cabbage.

Very hard and solid, produce large heads of exceptionally good quality. This variety should yield over 25 tons to the acre under favorable conditions. It is a good late keeper and one of the Best for Storage. The color of the outer leaves is Bluish Green and **Back's Strain** of Hollander is thereby easily recognized. We recommend this to be the most reliable late cabbage.

Oz. \$.35 1/4 Lb. \$1.25 Lb. \$4.00

Ferry's Strain Hollander

This Cabbage is grown by many of the large Cabbage Growers, and we consider it one of the Best.

It is a late variety with Medium sized Heads and as solid as a Rock.

It is a good late keeper.

Our Seed is grown by our Grower in Denmark from seeds we purchased from D. M. Ferry and Co.

GLADIOLUS

The Gladiolus is one of the most decorative plants in the garden, and as a cut flower lends itself readily to any arrangement. If the spikes are cut when the lowest flower is in bloom, the others will open in succession and remain fresh a week or ten days. No flower has gained more rapidly in public favor than Gladiolus; this could not well be otherwise, for in addition to the great intrinsic merit of the flower, it is hardy and blooms the first season from bulbs.

All our Gladioli Bulbs are large and not to be compared with small sizes offered cheaper elsewhere.

“Racine Park Lawn Grass Seed”

This Lawn Grass Seed Mixture IS THE FRUIT OF MANY YEARS OF EXPERIENCE AND CLOSE STUDY OF SOIL CONDITIONS IN RACINE COUNTY AND IS UNDOUBTEDLY THE BEST THAT CAN BE HAD.

It is composed of the highest grade Lawn Seeds, having the highest purity and germination there is to be had.

By its use a deep green velvety sward free from lumps can be produced in from four to six weeks.

The remarkable heavy demand for RACINE PARK LAWN GRASS SEED this past year proves the quality. 1 lb. will sow 175 square feet, 100 lbs. to the acre. Lb., 50 cts.; 10 lbs., \$4.75; 25 lbs., \$11.50; 100 lbs., \$45.00

“Oak Shade Lawn Seed”

On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get into grass, but with this mixture there need be no further difficulty. It is a combination of fine dwarf growing, evergreen varieties, which in their wild or natural state are to be found growing in the woods or other sheltered and shaded spots. Ground that has been densely shaded by trees is frequently “sour” and if the drainage is defective it is apt to be covered with moss and coarse grasses. In such cases an application of slaked lime, at the rate of one bushel to each thousand square feet, or forty bushel to the acre, is an excellent corrective and sweetener, but the moss should be first removed by the use of a sharp rake 1 lb., 75 cts.; 10 lbs., \$7.20; 20 lbs., \$14.00.

Fertilizers

Standard Seed Company's Complete Fertilizer for Garden and Lawn— Prices Subject to Change.

A complete manure, especially adapted for the top dressing of lawns. It is odorless, clean and convenient to use. Sow broadcast, in early spring just as the grasses are starting into growth; it will be found of great benefit in producing a nice, healthy growth of turf. It is much easier to use than a top dressing of stable manure, which very often introduces a large crop of vile weeds into lawns, besides being very unsightly. Quantities required and prices:

10x 25 feet, use 5 lbs.; price.....	.00	.35
20x 25 feet, use 10 lbs.; price.....	.00	.60
25x 50 feet, use 25 lbs.; price.....	.00	1.30
25x100 feet, use 50 lbs.; price.....	.00	2.50
50x100 feet, use 100 lbs.; price.....	.00	4.00
